

**PUROFLUX**  
CORPORATION

## **INDUSTRIAL APPLICATIONS SUMPS / PITS / BASINS**

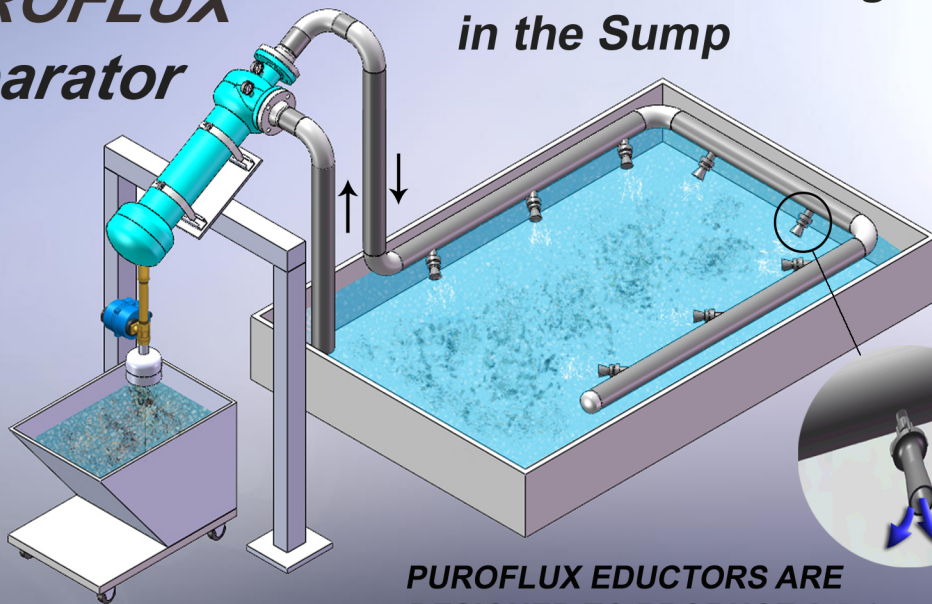

Over time sumps, pits and basins collect solids. Manually removing these solids can increase liability and maintenance costs.

A **Puroflux** separator system in conjunction with a well designed sweeper system will reduce the amount of cleaning and associated costs.

***PUROFLUX SEPARATOR SYSTEMS CAN BE UTILIZED TO PREVENT OR REDUCE THE AMOUNT OF SOLIDS BUILD-UP IN A SUMP.***

***PUROFLUX  
Separator***

***Prevents Solids  
from Accumulating  
in the Sump***

***PUROFLUX EDUCTORS ARE  
DESIGNED TO PRODUCE A 5:1  
FLOW RATIO WHICH INCREASES  
FLOW AND AGITATION.***
