 Phone: (805) 579-0216
 Fax: (805) 579-6005
 Email: sales@puroflux.com
 Website: www.puroflux.com

1. The filtration / separation selections are based on current available BAC data for single cell cooling tower models with factory installed sweeper piping. (Actual flows may vary, check with your local dealer.)
2. This guide was designed to aid in the selection of standard catalog Puroflux equipment for BAC factory installed sweeper piping.
3. The PF-63 models include a recovery vessel as standard.
4. The PF-64 models include an automatic purge valve as standard.
5. Media filter models listed utilize tower water for the backwash source. To specify city water as the backwash source, change the last two digits to "02". (Ex: PF-3042-02-02)
6. Please contact Puroflux or your local representative for multiple cell and/or slip stream applications not shown.

| 3000 Series | | | |
|--------------------------------------|--------------------------------|------------------------|-------------------------------------|
| Model Number | Sweeper Piping Flow Rate (GPM) | Suggested Media Filter | Suggested Separator |
| S3E-8518-05* | 200 | PF-3042-02-01 | PF-64-030-AP (or) PF-63-030 |
